

Weekly Media Monitor

March 25th - 31th, 2024

This week's major news updates in Pakistan's energy sector:

- ⇒ Federal energy minister Awais Leghari demands 1.23 trillion rupees from the federal finance ministry for the fiscal year 2024-25 to cover power generation costs and to pay back circular debt.
- Pakistan seeks waiver from the sanctions that the United States imposes on Iran and those countries and entries that do any business with Iran. The waiver is being sought for the construction of the long-delayed Pakistan-Iran gas pipeline.
- The Oil and Gas Regulatory Authority (OGRA) confirms daily smuggling of 4000 tonnes of fuel into Pakistan, causing sales from the local oil sector to plummet.
- Federal government raises petrol prices by 9.66 rupees per liter to cater to the rising global petroleum prices.
- Ten power distribution companies (Discos) petition the National Electric Power Regulatory Authority (NEPRA) for the approval of 9.9 billion US dollars in tariff adjustments for the upcoming fiscal year.
