

# Weekly Media Monitor

Jan 20th - Jan 26th, 2025

This week's major news updates in Pakistan's energy sector include:

- ➔ The IUCN reassured Thar residents that it would engage with a coal mining company to prevent misuse of a 2018 study, which the locals claim falsely downplays the harmful social and ecological impacts of mining activities.
- ➔ Efforts to renegotiate power agreements will likely have little impact on electricity prices, with potential savings of under Rs2 per unit.
- ➔ Under the "Solar Energy Project", the Sindh government plans to solarize 200,000 households with World Bank support.
- ➔ PM Shehbaz Sharif instructed the Power Division to pursue both provincialisation and privatisation of Discos with a clear roadmap and timeline.
