

# Weekly Media Monitor

November 24th - November 30th, 2025

This week's major news updates in Pakistan's energy and climate sectors:

- Coal-fired power plants repatriated 135 million US dollars in profits in October even when power generation from imported-coal plants fell 54 per cent.
- Pakistan's rooftop solar generation will exceed daytime grid demand next year in certain industrial regions such as Lahore, Faisalabad and Sialkot.
- Sindh government earns 14.7 million US dollars through carbon-credit sales.
