

Weekly Media Monitor

November 17th - November 23th, 2025

This week's major news updates in Pakistan's energy and climate sectors:

- ➡ The 30th Conference of Parties to the Paris Climate Agreement (COP30) concludes in Belém, Brazil, with a global pact that nominally increases funding for developing nations but fails to mention reduction in the use of fossil fuels.
- ➡ The federal government claims that rising rooftop solar adoption does not significantly affect the national grid, with energy withdrawal from it remaining stable.
- ➡ The Asian Development Bank (ADB) approves 330 million US dollars in loan to Pakistan to connect ydropower projects with Islamabad and Faisalabad through a 290 kilometre 500 kilovolts (kV) transmission line and to upgrade grid infrastructure.
- ➡ The National Grid Company (NGC) begins the construction of 220/132 kilovolt transmission line in Gharo, Thatta district, to enhance the wind-generated electricity's connectivity with the national grid.
