

# Weekly Media Monitor

January 5th, 2026 – January 11th, 2026

This week's major news updates in Pakistan's energy and climate sectors:

- ➔ 1. The Oil and Gas Regulatory Authority (OGRA) reviews the gas pricing formula, moving away from fixed asset-based returns amid market liberalization.
- ➔ The federal government announces to install Advanced Metering Infrastructure (AMI) in five power distribution companies to modernise the electricity network and reduce annual transmission and distribution losses of approximately 1 billion US dollars.
- ➔ The United States exits the UN Framework Convention on Climate Change (UNFCCC), Paris Agreement, and other climate-related agreements, prioritizing national interests over international commitments.
- ➔ The federal government orders shift of high-loss power feeders to solar energy to cut losses and ensure reliable supply, starting pilot projects in Peshawar Electric Supply Company (PESCO) and Quetta Electric Supply Company (QESCO) areas.
